

Job Title: UI/UX Designer

Location: On-site / Remote / Hybrid

Experience: X–Y years

Employment Type: Full-time

Job Overview

We are looking for a UI/UX Designer who is passionate about creating intuitive, user-focused digital experiences. In this role, you will work closely with product managers, developers, and stakeholders to design clean, functional, and visually engaging interfaces across web and mobile platforms.

Key Responsibilities

- Design user-friendly interfaces for web and mobile applications
- Create wireframes, user flows, prototypes, and high-fidelity designs
- Conduct user research, usability testing, and gather feedback to improve designs
- Translate business requirements into simple and effective design solutions
- Maintain and contribute to design systems and style guides
- Collaborate with developers to ensure accurate implementation of designs
- Iterate designs based on user feedback, analytics, and product goals
- Stay updated with UI/UX trends, tools, and best practices

Required Skills & Qualifications

- Proven experience as a UI/UX Designer with a strong portfolio
- Proficiency in design tools such as Figma, Adobe XD, or Sketch
- Solid understanding of UX principles, accessibility, and responsive design
- Experience with wireframing, prototyping, and usability testing
- Strong visual design skills including typography, color, and layout
- Ability to clearly explain design decisions to technical and non-technical teams
- Basic understanding of HTML, CSS, and front-end development is a plus

Preferred Qualifications

- Experience working on SaaS, dashboards, or data-heavy applications
- Familiarity with design systems and component-based design
- Experience collaborating in Agile or product-driven environments

What We Offer

- Opportunity to work on meaningful and impactful products
- Collaborative and supportive work environment
- Competitive salary and growth opportunities
- Flexible work arrangements
